TECTONOPHYSICS

Contents Volume 260

Special Issue: Uplift and Exhumation of Metamorphic Rocks of the Himalayan Tibet Region
(edited by J.P. Burg)

Preface vii
Multi-stage development of the southern Tibet detachment system near Khula Kangri. New data from Gonto La
M.A. Edwards, W.S.F. Kidd, J. Li, Y. Yue and M. Clark 1
Ductile extrusion of the Higher Himalayan Crystalline in Bhutan: evidence from quartz microfabrics
D. Grujic, M. Casey, C. Davidson, L.S. Hollister, R. Kündig, T. Pavlis and S. Schmid 21
The process and mechanism of the rise of the Qinghai–Tibet Plateau
T. Li 45
Tibet uplift and erosion
E.J. Fielding 55
The Tsergo Ri landslide: an uncommon area of high morphological activity in the Langthang valley, Nepal
H.J. Ibetsberger 85
On preparatory causal factors, initiating the prehistoric Tsergo Ri landslide (Langthang Himal, Nepal)
J.T. Weidinger, J.-M. Schramm and R. Surenian 95
The Late Oligocene–Early Miocene Himalayan belt: Constraints deduced from isotopic compositions of Early Miocene turbidites in the Bengal Fan
A. Galy, C. France-Lanord and L.A. Derry 109
Tectonometamorphic evolution of the central Karakorum (Baltistan, northern Pakistan)
Y. Lemennicier, P. Le Fort, B. Lombardo, A. Pêcher and F. Rolfo 119
Multistage structural evolution of Northern Karakorum (Hunza region, Pakistan)
A. Zanchi and D. Gritti 145
Rejuvenation of Rb–Sr mica ages during shearing on the northwestern margin of the Nanga Parbat–Haramosh massif
M.T. George and J.M. Bartlett 167
Fission-track and $^{40}Ar/^{39}Ar$ evidence for episodic denudation of the Gangotri granites in the Garhwal Higher Himalaya, India
R.B. Sorkhabi, E. Stump, K.A. Foland and A.K. Jain 187
Late Miocene to Early Pliocene tectonometamorphism and cooling in south-central Karakorum and Indus–Tsangpo suture, Chogo Lungma area (NE Pakistan)
I.M. Villa, Y. Lemennicier and P. Le Fort 201
Exhumation overrated at Nanga Parbat, northern Pakistan
A.G. Whittington 215

Research Papers
Mechanical development of vein structures due to the passage of earthquake waves through poorly-consolidated sediments
R.J. Brothers, A.E.S. Kemp and A.J. Maltman 227
Delineation of lithostructural domains in northern Orissa (India) from Landsat Thematic Mapper imagery
C.R. Nash, L.R. Rankin, P.M. Leeming and L.B. Harris 245
Neogene volcanism and Holocene earthquakes in the Tanlu fault zone, eastern China
W. Huang, W. Gao and G. Ding 259
Litho–asthenospheric structures of northern Italy as inferred from teleseismic P-wave tomography
S. Solarino, D. Spallarossa, S. Parolai, M. Cattaneo and C. Eva 271
Paleogeography and structure of the central Mediterranean: Sicily and its offshore area
R. Catalano, P. Di Stefano, A. Sulli and F.P. Vitale 291

Pre-Quaternary orogen-parallel extension in the Southern Apennine belt, Italy
L. Ferranti, J.S. Oldow and M. Sacchi 325
3D crustal architecture of the Alps–Apennines join — a new view on seismic data
M.E. Schumacher and H.P. Laubscher 349
